

Andrea Tedesco - Curriculum Vitae

Date of birth: 14/01/1999
Status: PhD Student
Field: Mathematics
Languages: Italian: Native speaker
English: C1
Portuguese: B2
Spanish: B1
German: A2
Contacts: Piazza Nicholas Green, 9
87036 Rende, Italia
+39 3470631587
+351 918592160

Professional profile

Introduction

I am an ambitious and driven young professional, aware of my abilities and guided by a strong work ethic and spirit of sacrifice. While I am deeply interested in the concrete applications of mathematics—particularly in fields such as epidemiology, meteorology, data analysis, and engineering—I am equally fascinated by the richness and complexity of mathematical theory. I find great satisfaction in tackling challenging problems: the process of understanding, exploring, and ultimately solving a mathematical question is both demanding and highly rewarding. In addition, I have a strong interest in learning foreign languages and continuously broadening my perspective.

Education

After obtaining my Classical High School Diploma, I began my university career at the University of Pisa, renowned for its mathematics faculty. There, I had the opportunity to engage with inspiring professors and peers who motivated me to give my best and from whom I drew significant inspiration. After an initial interest in cryptography and number theory, I gradually redirected my curiosity towards other areas of mathematics. In particular, I developed a strong interest in partial differential equations, functional analysis, and the calculus of variations. Starting from September, I began a PhD in Mathematics at the University of Porto. This experience is allowing me not only to further deepen my knowledge in these fields but also to actively engage with and become part of the international scientific community.

Aspirations

Throughout my university years, I developed strong deductive reasoning and logical skills. I seek to be challenged in a role that is both fulfilling and allows me to apply the knowledge gained through my academic and professional experiences. I am motivated by intellectually stimulating challenges that enable me to fully express my potential, and I aspire to work in dynamic environments that foster innovation and continuous learning. I also see myself progressively taking on leadership roles in the management of complex projects. Building on my experience—albeit brief—in a corporate environment, I have embarked on a PhD in Mathematics, which I hope will represent a further milestone in the development of a meaningful academic career.

Work experiences

June 2026	Participant in the 14th edition of PSPDEs <i>Institut de mathématiques de Toulouse</i>	📍 <i>Toulouse, France</i>
	I took part in the conference Particle Systems and PDEs XIV and in the summer school that preceded it. The program included not only recent developments on classical models from Mathematical Physics, but also models arising from modern applications in Mathematical Biology, Collective Behaviour and Population Dynamics. During the conference week, I also had the opportunity to present a poster on my research.	
October 2025- Ongoing	PhD Student <i>Center of Mathematics of the University of Porto</i>	📍 <i>Porto, Portugal</i>
	Conducting research in partial differential equations, functional analysis, and calculus of variations; participating in seminars, conferences, and collaborative research activities.	
February 2025- May 2025	Environmental Consultant <i>TAUW ITALIA S.R.L.</i>	📍 <i>Pisa, Italy</i>
	My role was that of Project Assistant, and I was primarily responsible for running simulations aimed at meteorological and climatological characterization, in support of atmospheric dispersion studies and assessments of impacts on air quality and public health.	
September 2024- December 2024	Mathematical Tutor <i>Engineering Department, University of Pisa</i>	📍 <i>Pisa, Italy</i>
	I helped students prepare for the OFA test.	
October 2023 - July 2024	Mathematical Analysis Tutor <i>Department of Computer Science, University of Pisa</i>	📍 <i>Pisa, Italy</i>
	The task involved preparing lessons and exercises for the Mathematical Analysis exams.	
March 2023 - June 2023	Tutor <i>Department of Mathematics, University of Pisa</i>	📍 <i>Pisa, Italy</i>
	I was responsible for answering students' questions on first-year subjects in the Mathematics Bachelor's program.	

Education

September 2022 - January 2025	Master's Degree in Mathematics (Applied Curriculum) <i>University of Pisa</i>	📍 <i>Pisa, Italy</i>
	Title Dissertation: 'From Theory to Real World: Simulating the Spread of Infectious Diseases with the SIRCD Model' Mark: 110/110 with honors	
September 2017 - May 2022	Bachelor's Degree in Mathematics (Computational Curriculum) <i>University of Pisa</i>	📍 <i>Pisa, Italy</i>
	Title Dissertation: 'Prime number theorem and Dirichlet's theorem' Mark: 110/110 with honors	
September 2012 - July 2017	Classical High School Diploma <i>Classical High School Bernardino Telesio</i>	📍 <i>Cosenza, Italy</i>
	Mark: 100/100 with honors	

Certifications

June 2026	Level B2 in Portuguese	📍 <i>Porto, Portugal</i>
	I completed a course offered by FLUP at the University of Porto obtaining an official certification. I have been currently self-studying Portuguese with the aim of obtaining a higher-level certification.	
March 2026	Level B1 in Spanish	📍 <i>Porto, Portugal</i>
	I completed an online course offered by Instituto de Línguas Núcleo obtaining an official certification. I have been currently self-studying Spanish with the aim of obtaining a higher-level certification.	
October 2025	CMUC Scholarship	📍 <i>Porto, Portugal</i>
	I was awarded a one-year scholarship by the Centre for Mathematics of the University of Coimbra (CMUC), specifically granted to PhD students.	
February 2025	Level B2 (Advanced) in English	📍 <i>Pisa, Italy</i>
	I completed a course offered by the CLI at the University of Pisa obtaining an official certification. I have been currently self-studying English with the aim of obtaining a higher-level certification.	
February 2025	Level A2 in German	📍 <i>Pisa, Italy</i>
	I completed a course offered by the CLI at the University of Pisa obtaining an official certification. I have been currently self-studying German with the aim of obtaining a higher-level certification.	
May 2023	INdAM Scholarship	📍 <i>Rome, Italy</i>
	I received one of the INdAM scholarships provided by the University of Pisa in collaboration with the National Institute of High Mathematics 'Francesco Severi'.	
20/04/2018	Driver's License Category B	📍 <i>Rende (CS), Italy</i>

Digital skills

Programming languages	C (Advanced), C++ (Advanced), Python (Advanced), MATLAB (Advanced), R (Basic)
Office Package	Word (Basic), Excel (Advanced)
Operating systems	Systems and Networks Management (Basic)

Personal skills

Communication	Strong motivation and proactive attitude Ability to work in a team Excellent stress resistance Flexibility and adaptability
----------------------	--

Organization

Planning and resource management
Analytical thinking and problem-solving skills
Attention to details
